ABOUT ME

Deeply passionate about the overlap between software development and design; fascinated by interaction design and related human factors. I get easily curious about interactive artifacts and enjoy learning about new topics. I consider myself a methodic, open-minded and collaborative person, having a great eye for detail. I embrace challenging tasks in a serious, meticulous and creative way, adopting user-centred and goal-directed design approaches, by seeking to bridge the gap between user research and design through interaction design methodology. I'm always eager to put theory into practice and gain experience.

PROFESSIONAL SKILLS

- Back-end Dev**
- Java, Python, SQL, Node
- Front-end Dev**
- HTML, CSS, JavaScript, React, Vue
- Design Thinking**
- Interaction Design Methodology
- Prototyping**
- Sketch, Figma, Framer, InVision

LANGUAGE PROFICIENCY

- Italian** mother tongue
- English** professional
Cambridge Advanced English
Certified on April 2019
CEFR Level: C1
- Spanish** intermediate
- Swedish** beginner

WORK EXPERIENCE

- from November 2021 to January 2022
TEACHING ASSISTANT
TDA493 Graphical Interfaces
- from June 2021 to July 2021
CONTENT & SENTIMENT ANALYST · Freelance
Weatherlight
- from March 2020 to May 2020
WEB DEVELOPER · Academic Traineeship
Develon Digital
- from July 2016 to August 2016
COMMUNITY ASSISTANT · Summer Job
